Dear FCC:

We only use the wireless phone when we travel. It gives us peace of mind. We are seniors and on a fixed income. I think it is unfair to do this. In fact this is the first we have heard about it. Are you trying to have it pass before anyone knows about. Of course you wouldn't do that.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
